Mujtaba Shah.

Senior Intelligent Automation Analyst, DigiBlu

PROFILE

Ten years in consulting, the last five in process optimisation and intelligent automation, across the public sector, healthcare, education, financial services and telecoms, and building my own products along the way.

EXPERIENCE

Senior Intelligent Automation Analyst Dec 2021 – present DigiBlu

Design and deliver intelligent automation, from APIs and Power Apps to RPA, for healthcare, education and financial-services organisations.

- Led automation for a UK healthcare group, delivering RPA and workflow solutions that streamlined processes, cut manual work and improved turnaround times.
- Partnered with a pensions administrator on as-is process assessments, future-state operating models, and the SOPs and technical documentation behind automation-driven service delivery.
- Delivered opportunity assessments and ROI-focused business cases that won senior stakeholder approval for automation roadmaps and investment.
- Designed and implemented intelligent automation combining automation technologies, document digitisation and process orchestration, with measurable gains in efficiency, compliance and cost.
- Ran workshops, requirements gathering and solution design sessions with business and IT stakeholders, keeping delivery aligned with strategic objectives.

Management Consultant Apr 2018 – Nov 2021 Infosys Consulting

Led RPA, digital-experience and data-product work for UK public-sector and global telecoms clients, from business case to rollout.

- Managed digital transformation programmes, including RPA implementation and a Digital Experience Platform discovery for a major educational institution, improving operational efficiency and user engagement.
- Ran technical feasibility assessments and designed future-state processes, with business cases that secured senior stakeholder buy-in and funding.

LANGUAGES

English

Native

- Defined end-to-end solution requirements (functional, non-functional and security) and wrote the specifications that guided development and implementation teams.
- Drove adoption through change management, training and stakeholder engagement, and supported public-sector procurement and compliance assessments.

Consulting Analyst

Sept 2016 – Mar 2018

Infosys Consulting

Requirements, process assessments and user acceptance testing on transformation programmes for large banking, pharmaceutical and public-sector clients.

- Supported senior consultants on engagements across financial services, the public sector and education, with research, data analysis and documentation that informed strategic initiatives.
- Contributed to client workshops, requirements gathering and stakeholder meetings, shaping solutions to business challenges.
- Helped build key deliverables, including process maps, business cases and executive presentations.
- Built consulting skills through formal training and on-the-job learning, with early exposure to RPA and digital platforms.
