Mujtaba Shah.

Senior Automation Analyst

PROFILE

Senior automation analyst with 10+ years in management consulting and intelligent automation, now bringing that experience to building products with AI. Takes complex operational problems from discovery and business case through to working solutions, from RPA and Power Platform delivery to web apps built with AI coding tools. Has led project teams of up to five on client engagements, working directly with client stakeholders. Certified Scrum Master and Product Owner.

EXPERIENCE

Senior Automation Analyst

Dec 2021 – present

DigiBlu

- Led the strategy, design and build of internal initiatives, including DigiBlu's new website (digiblu.com) and a pilot Learning Experience Hub for employees, working with the technical architect on enterprise setup, security and scale.
- Led automation initiatives for clients including a UK healthcare group, delivering RPA and workflow solutions that reduced manual work and improved turnaround times.
- Led a SharePoint reorganisation for a US communications provider's sales teams, producing the project plan, content audit and governance framework to prepare for a new sales content platform.
- Delivered automations using APIs and stored procedures, and a Power Apps replacement for a legacy service charges system, through testing, deployment and hypercare.
- Assessed as-is processes for a pensions administrator, defining the future-state operating models and SOPs behind automation-driven service delivery.
- Delivered opportunity assessments and ROI-focused business cases that secured senior stakeholder approval for automation investment.

Management Consultant

Apr 2018 – Nov 2021

Infosys Consulting

- Served as Product Owner for self-service data dashboards on a Google Cloud data warehouse for a global satellite communications company, owning the backlog, priorities and roadmap.
- Managed digital transformation programmes, including RPA implementation for a UK public-sector organisation and a Digital Experience Platform discovery for a major educational institution.
- Developed delivery strategies and roadmaps, coordinating phased RPA and analytics rollouts within regulatory, security and change constraints.

SKILLS

Intelligent Automation (RPA)
Product Ownership
AI-Assisted Development
Agentic AI Workflows
Prompting & Working with LLMs
Project Management
Agile (Scrum, Kanban)
Roadmaps & Prioritisation
Solution Design
Business Cases & ROI
Stakeholder Management
Workshop Facilitation
Business Analysis
Process Mapping (As-Is/To-Be)
Requirements Gathering
UAT & Testing
Change Management & Training
Technical Writing (SOPs)

TOOLS

Claude Code
Codex
ChatGPT
OpenAI API
Microsoft 365 Copilot
Copilot Studio
GitHub
Next.js
Supabase
Vercel
Cloudflare
Sentry
Framer
Shopify
UiPath
Power Apps
Power Automate
Power BI
SharePoint
Jira
Confluence
Google Cloud

- Ran technical feasibility assessments and built the cost-benefit models and business cases that secured senior stakeholder buy-in and funding.
- Defined end-to-end requirements for delivery teams, ran vendor assessments and public-sector procurement, and drove adoption through change management and training.

Consulting Analyst
Sept 2016 – Mar 2018

Infosys Consulting

- Delivered consulting on digital transformation and process automation programmes for clients in financial services, pharmaceuticals, education and the public sector.
- Gathered and documented requirements from client stakeholders, and assessed current processes to find inefficiencies and recommend technology-enabled solutions.
- Assessed the technical and business feasibility of automation opportunities, identifying RPA candidates to improve operational efficiency.
- Ran user acceptance testing activities, gave testing and quality assurance support to implementation teams, and delivered end-user training on process and system changes.
- Produced research, data analysis, process maps, business cases and executive presentations, and co-led a Lean UX workshop for a global chemicals company.

EDUCATION

BSc International Management (Middle East and North Africa)
Oct 2013 – Jul 2016

SOAS, University of London

BTEC Extended Diploma in Business (Finance), Level 3
