

Mujtaba Shah, Senior Automation Analyst

Consulting professional with 9+ years' experience in project management and business analysis. Expert in delivering automation, process optimisation, and digital transformation projects. Skilled in business case development, solution design and implementation, and stakeholder management. Certified Scrum Master and Product Owner with strong communication skills, bridging business needs and technology solutions.

Employment History

Senior Automation Analyst at DigiBlu, City of London

Dec 2021 — Present

- Led automation initiatives for clients including a UK healthcare group, delivering RPA and workflow solutions that streamlined business processes, reduced manual work, and improved turnaround times.
- Partnered with a pensions administrator firm to conduct as-is business process assessments, define future-state operating models, and create detailed SOPs and technical documentation to enable automation-driven service delivery.
- Delivered opportunity assessments and ROI-focused business cases, securing senior stakeholder approval for automation roadmaps and investment.
- Designed and implemented intelligent automation solutions integrating automation technologies, document digitisation, and process orchestration, delivering measurable benefits in efficiency, compliance, and cost reduction.
- Collaborated with business and IT stakeholders through workshops, requirements gathering, and solution design sessions, ensuring alignment between automation delivery and strategic objectives.

Management Consultant at Infosys Consulting, City of London

Apr 2018 — Nov 2021

- Managed digital transformation programs for clients, including RPA implementation and a Digital Experience Platform discovery for a major educational institution, improving operational efficiency and user engagement.
- Conducted technical feasibility assessments and designed future-state processes, developing comprehensive business cases that secured senior stakeholder buy-in and funding.
- Defined end-to-end solution requirements (functional, non-functional, and security) and produced detailed specifications to guide development and implementation teams.
- Enabled adoption of digital solutions by delivering change management, training, and stakeholder engagement, while also supporting public sector procurement and compliance assessments.

Consulting Analyst at Infosys Consulting, City of London

Sep 2016 — Mar 2018

- Supported senior consultants on engagements across financial services, public sector,

And education, conducting research, data analysis, and documentation to inform strategic initiatives.

- Contributed to client workshops, requirements gathering, and stakeholder meetings, building a strong understanding of business challenges and shaping potential solutions.
- Assisted in the development of key deliverables including process maps, business cases, and executive-level presentations, ensuring clarity and impact for decision-makers.
- Enhanced consulting skills through formal training and on-the-job learning, gaining exposure to emerging technologies such as RPA and digital platforms while developing industry knowledge.
